PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with hands-on experience building scalable, secure, and high-performance web applications using **React.js, Node.js, Express.js, JavaScript (ES6+), Firebase, MongoDB, and MySQL**. Strong expertise in **RESTful API development, authentication & authorization, CRUD operations, database design, state management, and responsive UI architecture**. Experienced in developing modular, production-ready applications following clean code principles and performance optimization best practices.

PROFESSIONAL EXPERIENCE

- Sandhya Softtech Pvt. Ltd.** Oct 2025 – Present
React.js Developer Intern
 - Developed and maintained scalable web applications using **React.js, Node.js, and Express.js** following component-based architecture.
 - Built reusable and responsive UI components using **Bootstrap**, reducing UI development time by 20%.
 - Implemented secure authentication and role-based access control using **Firebase Authentication**.
 - Integrated RESTful APIs and optimized state management to enhance performance and scalability.
 - Collaborated in debugging, testing, and deployment processes following industry best practices.

EDUCATION

- MES Abasaheb Garware College** 2024 – Expected 2026
M.Sc (Computer Application) Pune, Maharashtra
- Deogiri Institute of Technology and Management Studies** Graduated – May 2024
B.Sc (Computer Science) Chhatrapati Sambhaji Nagar, Maharashtra
 - Secured **70.07%**

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+)

Frontend Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Responsive Web Design

Backend Technologies: Node.js, Express.js, RESTful API Development, Middleware

Databases: MySQL, MongoDB, Firebase Realtime Database

Developer Tools: Git, GitHub, VS Code, Postman, npm

Core Concepts: Object-Oriented Programming (OOP), Authentication & Authorization, CRUD Operations, API Integration, Database Design, State Management

PROJECTS

- Hospital Management System** GitHub Repo
React.js, Tailwind CSS, Firebase
 - Designed and developed a full-stack hospital management system to manage patient records, appointments, and administrative workflows.
 - Implemented role-based authentication and secure data handling using Firebase Authentication and Realtime Database.
 - Developed optimized CRUD operations and structured scalable NoSQL database architecture.
 - Built fully responsive UI ensuring cross-device compatibility and performance optimization.
- React News App** GitHub Repo
React.js, REST API
 - Integrated third-party News API to dynamically fetch and display categorized content.
 - Implemented client-side routing, pagination, and reusable components for modular architecture.
 - Optimized API calls and state management to enhance user experience.
- E-Learning Platform** GitHub Repo
PHP, MySQL, Bootstrap
 - Developed authentication system and course management modules using PHP and MySQL.
 - Designed normalized relational database schema ensuring data integrity and scalability.
 - Implemented server-side validation and optimized SQL queries.
