

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building web applications and REST APIs using React.js, Node.js, Express.js, and MongoDB. Built responsive client websites using React.js and Tailwind CSS and developed a School ERP system with authentication, CRUD operations, and database integration. Currently building full-stack projects with AI APIs.

TECHNICAL SKILLS

Languages	JavaScript, HTML5, CSS3
Frontend	React.js, Bootstrap, Tailwind CSS, Responsive Web Design
Backend	Node.js, Express.js, RESTful APIs, JWT Authentication
CMS & SEO	WordPress, On-Page SEO, Technical SEO, Local SEO
Databases	MongoDB, MySQL
Tools	Git, GitHub, Docker, VS Code, Postman, npm, Netlify, Render, Hostinger, GoDaddy

PROFESSIONAL EXPERIENCE

Website Developer <i>DigiSevaks Media Agency</i>	Aug 2026 — Present <i>Pune, Maharashtra</i>
- Built 5+ responsive websites for clients using React.js, Tailwind CSS, HTML5, and CSS3, focusing on responsive design and UI/UX. - Developed reusable React.js components with animations and API integration for client-facing web applications. - Maintained and customized WordPress-based client websites alongside custom React.js builds based on project requirements.	
Junior Web Developer <i>Sandhya Softtech Pvt. Ltd.</i>	Nov 2025 — Jul 2026 <i>Ambajogai, Maharashtra</i>
- Independently developed a School ERP System end-to-end, covering frontend development, backend architecture, and database design. - Developed the frontend using React.js and built RESTful APIs with Node.js and Express.js to handle core application logic. - Implemented authentication and MongoDB database integration, along with full CRUD functionality across application modules. - Tested, debugged, and deployed the application as the sole developer while managing source code using Git/GitHub.	

PROJECTS

WanderAI – AI-Powered Travel Planner <i>React.js Node.js Express.js MongoDB Google Gemini API Tesseract.js</i>	Live Demo GitHub
- Built a full-stack AI travel planner using React.js, Node.js, Express.js, and MongoDB to generate personalized multi-day itineraries based on destination, duration, budget, and travel style. - Implemented OCR-based travel ticket processing using Tesseract.js and PDF parsing to extract passenger, flight, date, destination, seat, and gate information. - Developed JWT authentication, protected REST APIs, Cloudinary file storage, AI-powered packing checklists, and server-side PDF itinerary generation. - Deployed the application using Vercel, Render, and MongoDB Atlas.	
ResuMatch AI – AI-Powered Resume Analyzer <i>React.js Node.js Express.js MongoDB Mongoose Gemini API</i>	Live Demo GitHub
- Developed a full-stack AI career platform for ATS-readiness analysis, job-description matching, keyword gap analysis, and job application tracking. - Integrated Google Gemini API to generate ATS scores, resume improvement recommendations, skill extraction, missing JD keywords, and tailored resume suggestions. - Built a PDF processing pipeline using Multer, pdf-parse, and Cloudinary for resume text extraction, cloud storage, and document viewing. - Implemented JWT/bcrypt authentication, user authorization, RESTful CRUD APIs, and MongoDB/Mongoose integration; deployed the application using Vercel and Render.	

EDUCATION

M.Sc. in Computer Applications , MES Abasaheb Garware College, Pune <i>CGPA: 7.32 / 10</i>	2024 – 2026
B.Sc. in Computer Science , Deogiri Institute of Technology and Management Studies, Aurangabad <i>Percentage: 70.40%</i>	2021 – 2024
